LASELL SEMINARY.

Jennie June says: "It is the brightest, most home-like and progressive boarding-school I ever saw."

A prominent physician in Utica, N. Y., says: "I don't believe my daughter could have profited SO MUCH IN EVERY WAY in any other school in the world."

Mary J. Safford, M.D., of Boston, says: "I believe you are honestly trying to EDUCATE AND NOT VENEER young women for life's duties."

LASELL SEMINARY FOR YOUNG WOMEN.

AUBURNDALE (Near Boston), MASS.

Suggests to parents seeking a good school, consideration of the following points in its methods:—

1st. Its Special Care of the Health of Growing Girls.—Our pupils receive the daily attention of a lady physician, and her instruction in matters of health, with constant references to their school life. Work and recreation are suited to individual cases. The table is supplied with an abundance of the best food, in unusually great variety, and *well cooked*. Hours are arranged for early and long sleep. There are frequent excursions that combine illustration with pleasant diversion. There are none of the oft-repeated but, in the main, useless and hurtful test examinations, and like nervous exhaustives are avoided.

2d. Thorough Instruction in a Broadly-Planned Course of Study quite above the grade of most seminaries, or in special courses to suit special cases. Students from our regular Freshman and Sophomore classes have gone without condition into the full classical course in Smith, Vassar, Boston, etc.

3d. Its thoroughly home-like air and character.—A judicious motherly care takes the place, for the most part, of given rules; the pupils soon feel that they are loved and trusted, and respond naturally to this trust and are at their best. The system of control (peculiar to this school), of self-government, after a successful probation, appeals to the best motives and rarely fails to strengthen in each young woman a sense of responsibility to *herself* and her honor that is most valuable forever. The number of boarding pupils is limited, giving opportunity for individual care in habits of person, reading, manners, etc., etc.—trifles, perhaps, but yet important in a woman's furnishing for life.

4th. The Handiwork Department.—Boston specialists instruct in cooking, dress-cutting, millinery, art needle-work, and other unusual branches deemed useful for women, whether ever required for self-support or not. There is no requiring certain housework for each pupil, but these branches are placed upon the same basis as History, Music, book-keeping, or any of the branches taught.

The special facilities for instruction of a high grade, by reason of its nearness to Boston, and the consequent employment of teachers for certain work, who could not be had at a school further removed.

Parents are invited to consult the Catalogue. Regular expenses \$400 for the school year.—*Atlantic, August, 1880.*

This cemetery contains nearly one hundred acres, about one-half of it is under improvement. Its location is near the territorial centre of the city, and is accessible by excellent roads from every direction. The surface is undulating, and sufficiently diversified for natural beauty and artificial embellishment. It is well-watered by Cold Spring brook, and only requires reasonable expenditure to carry water to every part sufficient for irrigation and to maintain ponds where nature has provided locations. About nine hundred and fifty lots have been sold, and there are now ready for sale about one hundred and sixty very desirable lots of an average size of 300 square feet. Some of these can be subdivided into smaller lots, even only sufficient for two graves. The prices are for 300 and more square feet,—from 84 cents to \$1.00 per square foot. The prices of lots of less than 300 square feet are from 90 cents to \$1.00 per foot, and in all cases the price of perpetual care is added, and is from 30 to 33 cents per foot. If the monuments are elaborate the rate of perpetual care is higher.

The price of 2 grave lots is \$45, and perpetual care \$15. Right to bury in single graves for adults is \$15; and the interment fee is \$5. And for children under 11 years is \$10; and the interment fee is \$4.

No other expense than the prices above named is necessary, except for tablets and monuments, as the practice of ornamenting with elaborate stone work is discouraged by the Trustees as much as possible.

Connected with the cemetery there is a nursery and also three large greenhouses, where trees, shrubs, plants and flowers are for sale.

SECT. 26. The owner, tenant and occupant of any building or lot of land abutting on any sidewalk built in whole or in part by the city or town of Newton, shall, after a fall of snow, without delay, cause the same to be removed from the sidewalk adjoining the premises. If they shall fail to do so, the Superintendent of Streets shall cause the snow to be removed, and such owner, tenant and occupant, shall severally be held to pay the expenses of such removal, and in addition shall forfeit and pay a sum not less than one dollar nor more than ten dollars.

SECT. 27. No owner or driver of any vehicle shall place such vehicle in any street, to await employment, without the permission of the Mayor and Aldermen.

SECT. 28. No person shall unnecessarily stop a vehicle, or place any other obstruction, on any street crossing, or suffer his vehicle to stand an unreasonable length of time in a street; nor shall any person drive a vehicle upon or over any hose-pipe lawfully placed in a street, or in use at a fire.

SECT. 30. The Mayor and Aldermen may direct numbers, in regular series, to be affixed to or inscribed on buildings fronting on any street; and may determine the form, size, and material of numbers, and the manner of affixing or inscribing them.

The owner and the occupant of any building, or part of a building, when so directed as aforesaid, shall affix to the same the numbers so designated, in such manner as shall be prescribed; and no such owner or occupant shall affix or retain on such building for more than three days, any number contrary to the direction of the Mayor and Aldermen.

SECT. 31. Whoever violates any provision of this ordinance shall be fined not less than one dollar nor more than twenty dollars, unless otherwise provided in the preceding sections, and a like sum for every day an offence shall be continued.

BUILDINGS.

SECTION 1. No person shall erect, alter or rebuild, or essentially change any building, or any part thereof, for any purpose other than a dwelling-house, without first obtaining in writing a permit from the Board of Aldermen. The application for such permit shall specify the location and size of said building, the material of which it is to be constructed, and the use for which it is intended.

SECT. 2. No person shall use any building or part thereof, for any purpose rendering said building or buildings adjacent thereto, hazardous, unsafe, or liable to be destroyed by fire, or dangerous to persons or property, without first obtaining a permit as named in section number one.

SECT. 3. All chimneys hereafter erected shall be built of brick, stone, or other fire-proof non-conducting material. All brick flues shall be smoothly plastered inside with mortar, from top to bottom, and outside below the roofing. No wood-work of any kind shall be placed at a less distance than one inch from the outside brick-work of any flue, and in no case shall a nail be driven into the masonry of any flue.

No wood-work shall be placed at a less distance than one inch from any tin or other metal flue or flues, pipe or pipes, used or intended to be used to convey heated air or steam in any building, unless such flues or pipes be cased with metal, leaving a free circulation of air all around the same.

No smoke-pipe shall pass through any stud or wooden partitions, whether plastered or not, without being guarded either by a double collar of metal, with at least four inches air-space, and holes for ventilation, or by a soap-stone ring not less than three inches in thickness and extending through the partition.

SECT. 4. Whoever violates any provision of the preceding sections of this ordinance shall be liable to a fine not exceeding one hundred dollars.

SECT. 5. No person shall proceed to erect or make alterations in the location or grade of any fence, wall or building, a part of which is to abut upon a public street, lane, square or alley, without first applying to the City Engineer for the lines and grade of the street, lane, square or alley upon which he intends to build. Such application shall be made at least fifteen days before the work is begun; and the City Engineer shall within said time furnish the required lines and grade without charge, if in his power so to do. In default of such application the city shall be discharged from all responsibility for damages resulting from such default.

SECT. 6. Whenever the City Engineer ascertains that any structure has been placed in violation of the preceding section, he shall at once give notice to the Mayor and Aldermen, in writing, of such violation; and upon receipt of such notice the Mayor and Aldermen may forthwith issue an order to the party offending, directing that the structure be removed within the time therein specified; and in case of non compliance, the Mayor and Aldermen shall direct that the incumbrance be removed at the expense of the delinquent.

SECT. 7. Whoever violates any provision of the two preceding sections of this ordinance, shall be liable to a fine not exceeding twenty dollars.

METAPHORIC ROCK FOUNTAINS.

The vignette illustrates one constructed in Belmont some years ago; but a more extensive and complete design has recently been carried into execution on the beautiful estate of FAYETTE SHAW, Esq., Newtonville. These fountains when seen during the summer season, the delicate spray gracefully falling over the abnormal, corrugated forms, with the ferns, vines, etc., thriftily growing in the transverse fissures, and the fishes gaily chasing around in the rustic basin, make a grand, and impressive display. Or, when on dark summer evenings, illuminated with colored, especially red light, the jets are transformed into spouts of fire, forced through the craters of the cones, they present a volcanic phenomenon. Or, when early in Spring, or late in Autumn, on sunny days after freezing nights, coated with ice, the lucid peaks give the appearance of an Iceberg, with the sunshine pouring down upon it, and the colors of the rainbow reflecting and spreading its arch across this miniature, arctic scenery, it impresses upon the thoughtful beholders, that few ornaments can be added to public or private pleasure grounds that produce such natural and pleasing effects.

Metaphoric Rock Fountains, Cataracts, Grottos, Rustic Bridges, Etc.

Landscape Gardening in all its various branches, designed and executed on reasonable terms. Fruit and Ornamental Trees, Shrubs, Roses and Bedding Plants at Wholesale and Retail.
